

MOOSE HUNTING at Gransjøberget

The area:

Gransjøberget, north-east in the borough of Elverum. 2600 hectare. Forest terrain, mixed conifer forest. 400–600 meters above sea level. Parts of the hunting fields are at 700 meters above sea level, with a magnificent view.

Map:

Julussa (M711)

Time:

6 days of hunting/7 days stay; 25 – 30 September or 10 – 16 October. We will meet you at Elverum at 3 p.m. the day before the hunting starts. Hunting is possible at other times by special appointment.

Number of animals:

The quota is approximately 10 animals. Information on age/gender distribution will be released in July. If the assigned quota is reached, we will apply for additional animals, or we will hunt the quota of a neighbouring hunting team.

Hunter requirements:

Paid hunting license fee. 50 documented training shots over four nights. Approved hunter for big game. A good hunting dog may be approved for use in addition to the team's own dogs.

Accommodation:

During the moose hunt the entire team will stay at **Gransjøberget Sæter**, situated on the hunting grounds, in two-bed and three-bed rooms. All meals are taken at the long table. There is a wood-fired sauna and showers.

Number of guest hunters:

Up to six hunters.

Additional information:

Guest hunters participate in the hunt on equal terms with the other members of the team. The basic team consists of five hunters with on-leash dogs. The landscape is varied and the terrain is relatively easy for hunting. The basic team will accompany you to other hunting fields if that is desirable and feasible. The team has a hunting radio available for lending. Mobile reception is poor.

Prices:

Package price NOK 13 000 per person incl. accommodation (we provide bed linen) and simple meals. Meat may be bought at NOK 90,- per kg (hindquarters). The antlers go to the shooter.
